EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James McKeown on 3/19/07.

The application has been amended as follows:

Claims 20-27 have been rejoined. The restriction dated 6/15/06 has been withdrawn.

In claim 29, line 11, "folding knife" has been changed to --joint folding knife--.

In claim 32, line 1, "wherein a" has been changed to --wherein the--.

In claim 34, line 1, "29" has been changed to --30--.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: regarding claim 20, the prior art of record does not teach or fairly suggest a process of forming v-shaped loops in a web, sealing the sides of the loops to form rigidity strips extending collar-like from the web transversely to the web transport direction, and forming auxiliary loops which are intended to accommodate different lengths of the web. Regarding claim 28, the prior art of record does not teach or fairly suggest an apparatus comprising a loop forming means for forming v-shaped loops in a web, sealing means

for sealing the sides of the loops, and auxiliary loop forming means for forming auxiliary loops which are intended to accommodate different lengths of the web. Regarding claim 29, the prior art of record does not teach or fairly suggest an apparatus comprising a folding knife for forming v-shaped loops in a web, two nipping jaw pairs with a pressing device and heating device for pressing the sides of the loop together, and forming auxiliary loops which are intended to accommodate different lengths of the web. While Masao(U.S. Patent 4,522,676) and Savich(U.S. Patent 4,557,713) show loop forming means for forming v-shaped loops in a web and sealing means for seals the sides of the loops, they do not suggest auxiliary loop forming means for forming auxiliary loops which are intended to accommodate different lengths of the web.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barbara J. Musser whose telephone number is (571) 272-1222. The examiner can normally be reached on Monday-Thursday; alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (571)-272-1226. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
